PROFILE

Front-End Developer with experience in designing and developing user-centric websites using React.js, JavaScript, and modern web technologies. Proven ability to collaborate with teams and deliver responsive, dynamic web applications with a focus on performance and usability.

EDUCATION

Bachelor of Computer Science   2024
Faculty of Computers and Artificial Intelligence, Cairo University   Cairo, Egypt.
  - Relevant Coursework: Web Development, Human-Computer Interaction, Data
  Visualization

WORK EXPERIENCE

Front-end Web Developer (ReactJS)   Feb 2024 – Sep 2024
Rock Developments   Cairo, Egypt
  - Designed, developed, and optimized dynamic, responsive user interfaces for real
    estate platforms using **React.js**, enhancing user experience and engagement.
  - Collaborated closely with UX/UI designers to translate wireframes and prototypes
    into highly functional web applications, ensuring a seamless digital experience.
  - Integrated RESTful APIs to display real-time property data, search filters, and user-
    specific dashboards, ensuring smooth functionality across all devices.
  - Implemented state management solutions such as **Redux** to handle complex
    application states, improving performance and scalability.
  - Built reusable and modular components, reducing development time for future
    projects by 25%

Front-end Web Developer   Aug 2023 – Jan 2024
SoleekLab   Maadi - Cairo, Egypt
  - Built high-performance, user-friendly web applications using **React.js** for clients
    across diverse industries in Egypt and the UAE.
  - Collaborated with cross-functional teams, including designers, backend
    developers, and project managers, to deliver innovative tech solutions tailored to
    client requirements.
  - Developed reusable, modular components to streamline the development process
    and maintain consistency across multiple projects.
  - Integrated third-party APIs and services, enabling features such as real-time data
    updates, user authentication, and payment processing.

TECHNICAL SKILLS

Front-End Development
- React.js
- Redux
- React Router
- Hooks
- compatible with APIs
- Axios
- Routings

Programming
- Javascript ES6
- Python

UI/UX
- CSS3
- SASS
- Bootstrap
- Tailwind

Tools
- Git
- Github

PROJECTS

Data Analytics and Visualization 🔗
(Graduation Project - A+)
- Built a React-based platform with machine learning integration for analyzing and visualizing customer service data.
  - Technologies: React, APIs, Machine Learning

Pizza Company 🔗
- Developed a dynamic pizza ordering system using React.
- Users can customize orders, add items to carts, and experience a seamless checkout process.
  - Technologies: Redux, APIs, React Router

FairShare 🔗
(Simplified Bill Splitting for Friends)
- Created a responsive React application to manage shared expenses among friends.
- Features: Accurate balance tracking, responsive design, and state management.

FlexiBank 🔗
- Designed a user-friendly banking platform with essential features like account creation, balance management, and loan handling.
- Technologies: React, Redux.

CRUD 🔗
Functionality: Create, Read, Update, and Delete. Built with the Context API for efficient state management:
- The app delivers a seamless user experience and intuitive operations.
- Crafted to demonstrate practical skills in managing and manipulating data in a React environment.
- Technologies: Context API, and State Management
