PROFILE

During my tenure as a Junior Front-End Developer, I honed my skills in crafting dynamic and user-centric websites using a variety of technologies. I specialized in React.js, employing its powerful components and routing capabilities to create seamless and interactive web experiences. Leveraging my proficiency in HTML, CSS, and Bootstrap, I designed visually appealing layouts, ensuring a responsive and polished appearance across diverse devices. In addition, my expertise extended to incorporating vanilla JavaScript to enhance the functionality of websites, demonstrating my commitment to delivering engaging user interfaces. This experience not only deepened my technical proficiency but also strengthened my ability to collaborate with cross-functional teams, contributing to the successful realization of web projects.

EDUCATION

Bachelor of Computer Science   2024
Faculty of Computers and Artificial Intelligence, Cairo University   Cairo, Egypt.
 - Fresh Graduated

SKILLS

CSS-3   **JavaScript**
 - Bootstrap
 - SASS   **Github/Git**
 - Tailwind

 - Hooks
 - State Management
 - Routings
 - Redux
 - compatible with APIs

LANGUAGES

 - English   - Arabic

PROJECTS

Data Analytics and Visualization 🔗
(Graduation Project - A+)
- This project provides a powerful tool for Customer Services Data Analysis and Visualization.
- Built with a dynamic React frontend, it offers an intuitive interface for users to explore and analyze customer service data.
- The platform incorporates machine learning to automate data insights.

Pizza Company 🔗
(React, Redux & React Router)
- A dynamic website for a pizza company, allowing users to browse and order from a variety of pizzas.
- Built with React, Redux, and React Router.
- Users can easily add items to their cart, customize their orders, and enjoy an intuitive ordering process.

FairShare 🔗
(Simplified Bill Splitting for Friends)
- FairShare offers a streamlined way to manage shared expenses with friends.
- This responsive React app accurately tracks balances, identifies who owes whom, and checks if everything evens out.
- Built with a focus on responsive design and smooth state management.

FlexiBank 🔗
(React & Redux)
- This project offers essential banking functionalities, including account creation, balance management, loan requests, and repayments, all wrapped in a responsive and user-friendly interface.
